## WORK EXPERIENCE

#### QA INFOTECH | Software Development Engineer II

Noida, India | June 2018 - Present (2.5+ Year)

- Successfully **converted outsourcing project to in-house** by devising algorithm and presented prototype under 30 days.
- Established ML department in organisation within 1st year and expanded to 3 developers at present.
- Led **development of 3 projects** based on Machine Learning in Education, Entertainment and Testing domain.
- · Mentored 3 interns under Python and Machine learning division.
- Initiated a 2 week voluntary program to train employees in Python outside office hours.
- Successfully **convinced prospect client** of major book Publisher for meeting on ML based product under direct collaboration with CEO of QA Infotech.

# TECHNICAL SKILLS

PROGRAMMING LANGUAGES Java, Python, Javascript, SQL Frameworks Django, Flask, Spring, SpringBoot

TECHNOLOGIES Machine Learning, Hadoop, NLP, MongoDB, Selenium, MySQL, PostgreSQL, NoSQl

# **KEY PROJECTS**

### AI TESTBANKS | PYTHON, NLP, AWS, MONGODB

http://www.aitestbanks.com/

- Developed NLP based product that generates questions in 5+ categories from ebooks automatically.
- Worked closely with COO and Vice President of organization for developing and delivering product.
- Decreased algorithm runtime by 80% for finding relevant distractor set with improvised indexing and pattern matching.
- Established product backend with complete codeflow architecture along with integrations with MongoDB, AWS and jenkins.
- Increased 50% more metadata coverage and text mapping with revamped epub parser and mapping algorithms.

#### ALTEYE | NLP, OPENCV, PYTHON, FLASK, CHROME EXTENSION

- Devised a computer vision based product for testing websites for accessibility for visually impared people.
- Collaborated with Director of Testing division for Test suites integration and better handling of real world bottlenecks.
- · Hosted backend API's over flask and wrote Test cases and documentations for api coverage.
- · Increased product relevancy by using word embedding and Image captioning.
- · Developed a Chrome Extension leveraging product API for plug and play functionality.

## **ACHIEVEMENTS**

- · Hencoder Published a open source python package to encode-decode any text.
- Speaker at DevSummit 2k19 for talk on Topic Modelling in every day life, a yearly developers conference in organisation.

## **EDUCATION**

A.K.T.U UNIVERSITY | Bachelor of Technology - Computer Science Noida, U.P, India | June 2014 - June 2018
